letters to the editor...

Sir:

On April 20, 1972 at 2:45 A.M. A policeman sitting in his patrol car saw a path of white light pass on the ground to the left side of his car. Looking up through his windshield he noticed a white circular light the size of the moon moving in the direction of his car. Meantime he was unable to stop the static on his police radio and the dogs nearby were barking. Soon the object was out of sight. A motorist approached him and inquired if the officer had seen the object.

I was awakened at 3:00 A.M. in the morning by a telephone caller who heard someone call an all night radio Talk Show and excitedly declare he was at that time seeing the object. I went to North Situate and found the above same policeman who had seen the object but couldn't locate any of the others.

Dear Sir:

I have seen craft several times over the years but have never reported any. However, yesterday it happened. It was 1:23 P.M. Tuesday April 4, 1972

I work in a photo hut, they are small, a sort of box with 3 sides of mostly glass and I have a good view.

I was leaning on the counter looking east, glancing up I saw this WHITE light wobbling toward me about 300 or so feet away and the same height. It was about the size of a water tower tank. It exploded, poof and that was all except a greyish smoke ascending. I wonder what happened? There were no other craft visible and no fragments.

Late News Flashes

Ted A Bohus and his brother armed with a 35 MM camera took a photograph of a UFO. Time 3/14/72 2:30 P.M. over a factory at Palisade Park, N.J. Object was moving very fast. They reported to

nobody. His address is 70 West Columbia Avenue Palisade Park, N.J. 07650

The object was round and black.

Possible U F O Sighting 9/6/72 4:30 A.M.

Travelling from west to east. Stationary for about five minutes over Flatbush Avenue (approx.) near Prospect Park. White round object. Rotating on an axis. Points sticking out. At one point all lights went out but object could still be seen. It appeared to be metallic. At arms length, as large as a T V screen

Husband reluctant to talk about it, even though he saw it too.

The interesting thing about the sighting was that the two people involved became bored with watching the UFO and became very sleepy and went to sleep as it moved off slowly, west to east. The wife had not yet been to sleep when she saw the object and had awakened her husband to look at it.

It is interesting to note that I was dreaming about UFO's at approximately that time, because on awakening at 6:30 I recalled that I had been dreaming of them an hour previous to waking up. Name withheld by request.

PASSPORT TO MAGONIA:

From Folklore to Flying Saucers

JACQUES VALLEE

Although the government-sponsored Condon Report claimed that "flying saucers" pose no threat and therefore are unworthy of study, in fact more than one thousand reliable witnesses over the past century have claimed to have observed and in some cases even communicated with extraterrestrial objects and creatures.

In this book, Jacques Vallee, a mathematician and astronomer, discusses and explores many of the most interesting reports through 1968 and turns his attention to the fact that throughout history, in all parts of the world, there is an incredibly consistent folk tradition dealing with visitation from—heaven, hell, Elfland, Magonia, whatever its name.

The experience of Joe Simonton, a Wisconsin farmer, who was, he claims, visited by "creatures" who asked for help and gave him food, in the 1960's is not so different from that of the sixteenth-century Mexican Indian visited by the "Virgin Mary" or from that of the Midwesterners who saw the

\$6.95

"airship" in the 1890's. The circumstances change, but it is possible to detect basic similarities. Folklore and "flying saucers" are not, in fact, Jacques Vallee finds, so different. Such incidents, experiences, and patterns provide the background material upon which Jacques Vallee bases this exhaustive study of the phenomenon of visitation, from the very earliest days to the present. His conclusions, tentative though they are, are startling in their breadth and implication.

Finally, *Passport to Magonia* contains a comprehensive catalogue detailing all the pertinent facts of some 900 reliable sightings of Unidentified Flying Objects in the past 100 years.

Jacques Vallee, an expert in computer technology and sometime NASA consultant, was born in France and educated there and in the United States. He has written two other books on UFO's: *Anatomy of a Phenomenon* and *Challenge to Science: The UFO Enigma* (with Janine Vallee)

Abominable Snowmen: Legend Come to Life

*The Story of Sub-Humans on Five
Continents from the Early Ice Age
Until Today*

Illustrated

\$7.50

Do "Abominable Snowmen" exist? Prepare yourself for a shock. In the opinion of one of the world's leading naturalists, not one, but possibly four kinds, still walk the earth! Do they really live on the fringes of the towering Himalayas and the edge of myth-haunted Tibet? They do, but we are far more likely to catch one in the United States! Northern California and its almost impenetrable Klamath Forests may hide the astonishing answer. From how many areas in the world have factual reports of wild, strange, hairy men emanated? Every continent, except Australia and the Antarctic!

Now at last, Ivan Sanderson, who has been accumulating material for 30 years on this subject, explains in language as plain and clear as a news flash just why no "Snowman" has ever been captured and kept for a zoo or a museum (one was caught during the last century, in Canada).

Has Sir Edmund Hillary said the last word, when he recently denied the existence of the creature he formerly strongly believed in? The whole story of his latest trip to the Himalayas is given to the public within this book.

What has Established Science had to say on the status of the "Snowman"? Why have the scientists played down the story? Why is the press so confused? The author explains the confusion of both, some of it deliberate.

Learn, for what may be the first time, the true story of the continents, and above all, the vegetation which covers them. Learn why many areas thought to be well known are less known today than a hundred years ago. Learn why maps are so deceptive, and frequently entirely useless. Learn what the American Indian knows about this problem and why, until very recently, he "wouldn't talk."

This is a book for those who want to discover the truth. The author, uniquely fitted by both intensive scientific training and his superb writing ability, tells this astonishing story and breaks down the barriers of Time and Space, showing in a bright light both how and why Mother Earth still clings to her ancient mysteries, and that the Age of Discovery has never really ended.

IVAN TERENCE SANDERSON, the author of *Abominable Snowmen*, is a world-famous zoologist and writer. *Animal Treasure*, *Follow the Whale*, and *Animal Tales* form only a part of his repertoire. He has also published exhaustively in scientific journals, under the auspices of the British Museum, the Chicago Museum of Natural History (formerly the Field Museum) and others. He holds degrees with honors from Cambridge University, England, in botany, zoology, and geology, and he has also read in (formally studied) anatomy and physical anthropology at the same institution.

Starting in the 1920's, Mr. Sanderson has led scientific collecting trips to such remote places as Nigeria, Guatemala, Malaya, and Dutch Guiana, all supported and backed by scientific institutions, such as the Percy Sladen Foundation of the British Museum. He has had his own TV show. The author and his wife (who collaborates on research and writing) currently divide their time between a farm in New Jersey and a New York apartment.

The Age of Flying Saucers

Notes on a Projected History of
Unidentified Flying Objects

by Paris Flammonde

Here is the only comprehensive—yet authoritative and concise—history of the phenomena of flying saucers.

THE AGE OF FLYING SAUCERS represents years of research by one of the foremost authorities on the subject, Paris Flammonde. It concentrates on the significant number of unidentified flying object sightings which began to occur during World War II and which have continued into the present era. Mr. Flammonde's work is thoroughly objective, letting the reader draw his own conclusions as to whether or not the objects exist. A considerable amount of documented information, case histories, and anecdotal records is included on such questions as:

- Are unidentified flying objects from outer space, and if not, what proof is there to show their origin on Earth?
- How are UFO hoaxes exposed, and what penalties are there for such frauds?
- Have human beings actually contacted beings from other planets?
- What proof is there for the truth of "contactees"?
- Has the U.S. Government actually ended its research on the saucer phenomenon?

Hundreds of events and personalities and several pages of photographs make this a complete and thought-provoking history.

Paris Flammonde was for a number of years the producer of *The Long John Nebel Show*, which has acted as a "clearinghouse" for UFO reports and information. He is also the author of several other works, including the much acclaimed *The Kennedy Conspiracy*.

Group of Responsible Scientists and Educators Claim...

EXISTENCE OF UFOs CAN
NO LONGER BE DOUBTED

NATIONAL

ENQUIRER

LARGEST CIRCULATION OF ANY WEEKLY PAPER IN AMERICA
FEBRUARY 6, 1972

By WILLIAM DICK

The existence of Unidentified Flying Objects (UFOs) can no longer be doubted.

And the most likely explanation for them is that they are vehicles controlled by intelligent beings from outer space, according to a group of responsible scientists and educators who discussed the subject in a 2-day conference at the University of Arizona.

Lecturers at the conference were professors from leading universities in the U.S. and Canada.

They called on the scientific community as a whole to make an all-out research effort to clarify the nature of UFOs.

"UFOs are now a respectable subject for scientific study," said Dr. J. Allen Hynek, director of the Dearborn Observatory and Lindheimer Astronomical Research Center, Evanston, Ill.

Dr. Hynek, for 20 years scientific consultant to the U.S. Air Force UFO investigation project, set the keynote of the conference with his remark.

This ENQUIRER reporter attended the conference last November, and here are the leading participants for their views.

Dr. Robert F. Creenan, described by "Who's Who in America" as an educator and professor of philosophy at the State University of N.Y., Albany.

"I'm convinced there is intelligent life in outer space. UFOs are not just illusions. Some reports show them to be controlled objects.

"To me, the most acceptable and realistic theory is that the UFOs are controlled by intelligent beings from outer space."

During his lecture, Dr. Creenan pointed out that electromagnetic effects from UFOs have been observed:

"Not only have automobiles been stalled by UFOs in many parts of the world, but also motorcycles and mopeds. In France, as well as farm tractors in Italy.

"In Alaska, a pattern of red-and-white lights swept in from the sea over Juneau and as they passed overhead some ships had electrical failures. In the U.S. Navy, ships in the Pacific also experienced an electrical black-out.

"Two trusted and highly skilled scientists — Wilbert Smith, in charge of 'Project Magnet,' the UFO study of Canada's National Research Council, and Dr. James McDonald, atmospheric physicist at the University of Arizona — both came to the same conclusion:

The best theory to fit UFOs is that they are controlled by beings from outer space.

My own belief about UFOs is the same as theirs," said Dr. Creenan.

Dr. R. Leo Sprinkle, associate professor of psychology and director of the Division of Counseling and Testing at the University of Wyoming, Laramie, told The ENQUIRER:

"I believe the most reasonable explanation for UFOs is that they are craft controlled by intelligent beings.

"From my examination of UFO case histories, I find it reasonable to believe we are being studied by intelligent beings who want to know how they're doing it.

"I do not feel that there is any reason for alarm. They give no evidence of hostility."

He mentioned an unofficial study made by an Air Force lieutenant who was asked them to describe their experiences.

"Two of the observers gave almost identical descriptions for UFO crew-

Group of Responsible Scientists and Educators Claim . . .

Existence of UFOs Can No Longer Be Doubted

Dr. Emerson W. Shideier, retired chairman of the Dept. of Philosophy at the State University of New York at Stony Brook, told The ENQUIRER:

"I believe the evidence is quite clear that UFOs exist. The most probable explanation is that they are vehicles controlled by intelligent beings from another planet."

"There is a very real possibility that they are completely unlike our accepted ideas of normal life. I do not believe they are just some kind of hoax or their impact on our national culture and religion would be tremendous if their visits could be proved."

Dr. John C. Munday, biophysics and associated professor at the University of Toronto, Canada, told The ENQUIRER:

"I certainly don't think that all UFOs are from our planet. One thing that convinced me of this was a case I investigated near Chicago several years ago.

"A housewife, who doesn't want to be named, heard a whistling sound coming from the front door and saw a bright orange light some distance away.

"She was frightened and shouted for her husband. He also saw the light. When the light finally disappeared, the whistling sound stopped.

The next day she felt sick and had a severe headache. Over the next two months, her skin continually became red, dry, scaly and peeled. I visited her two months after the incident and her skin still showed these effects.

But I gave her a lie-detector test and she confessed that she was telling the truth about her experience with the orange light.

"The thirst and raw skin the woman suffered are typical of an overdose of ultraviolet radiation. Or the high-frequency energy of the whistling sound sent out by the object might also have

been responsible for her condition," said Dr. Munday.

Dr. Frank B. Salisbury, head of the Dept. of Plant Sciences at Utah State University, Logan, explained to The ENQUIRER:

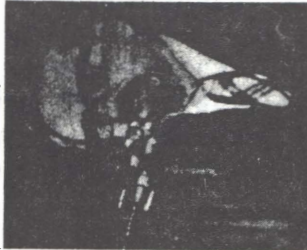

"We just don't know whether UFOs are controlled by space beings of intelligence — but it is a strong possibility and a theory we must seriously consider. One possibility is that they could be virtual 'immortals.' Certainly there are plant cells which have never died.

"These beings could be similar. It would help explain their survival for centuries, not to mention coming from other stars in our own Milky Way or even from other galaxies."

The scientific conference on UFOs was sponsored by the Aerial Phenomena Research Organization (APRO) of Tucson in collaboration with the University of Arizona's Institute of the Americas, Institute of Aeronautics and Astronautics.

James Lorenzen, APRO's international director, told The ENQUIRER after the conference:

"It was a valuable forum for leading scientists to give and exchange views on the UFO phenomenon. It pointed the way to better scientific research into the UFO phenomenon."

DR. J. ALLEN HYNEK
"UFOs are now a respectable subject for scientific study."

DR. LEO SPRINKLE
"We are being studied by intelligent beings who want to know about us."

THE REPORT ON UNIDENTIFIED FLYING OBJECTS

by
Stephen Putnam

The present Air Force statement on their analysis of UFOs declares that all but 2% have been explained away and that the 2% exists only because of insufficient data to enable them to be explained away.

However an insight to the Air Force method of arriving at its statistics may be obtained by reading page 211 of Captain Ruppelt's book "The Report On Unidentified Flying Objects." Here we have the following breakdown for sightings from 1947 to 1952

Balloons----- 18.51 %

Known 1.57
Probable 4.99
Possible 11.95

Aircraft----- 11.76 %

Known 0.98
Probable 4.99
Possible 11.95

Astronomical Bodies ----- 14.20 %

Known 2.79
Probable 4.01
Possible 7.40

Other ----- 4.21 %

Hoaxes ----- 1.66 %

Insufficient data ----- 22.72 %

Unknowns ----- 26.94 %

Note that the breakdowns into probable and especially possibles are far from absolute evaluations and in the case of balloons any spherical object could fit the possible category even it was a bona-fide UFO. Those catalogued as knowns are the only ones positively identified and they only total

1.57	5.34	
0.98	4.21	adding to that the
2.79	1.66	hoaxes. -
-----	-----	
5.34 %	11.31 %	

Only 11.31 % has been positively identified leaving 88.69 % unexplained. Capt. Ruppelt was the former head of the United States Air Force Project Blue Book investigating Flying Saucers.

WILLIS GEORGE EMERSON

Olaf Jansen, a fisherman from Sweden, and his son, sailed by accident through the North Polar opening into the Hollow Interior of the Earth, and lived two years among its people. Olaf Jansen claims this is his true story as told to Willis George Emerson. He tells of a race of Super Giants, fifteen feet tall, far advanced scientifically, who treated them with the utmost kindness. He lived in peace and harmony and traveled all over their country. He claims they returned through the South Polar opening. Fascinating reading, with pictures, charts, maps.
